

Bicycle Tours in Italy: Bicycle the Baroque Towns of Southeastern Sicily

OVERVIEW

This bicycle tour of southeast Sicily explores the heart of ancient Magna Grecia. Beginning in Siracusa or Syracuse in English, a UNESCO World Heritage Site with over 3,000 years of Mediterranean history you'll discover the interior towns in the Valle di Noto. Most of which were destroyed in a massive earthquake that killed 60,000 people in 1693. Under Spanish dominion at the time architects called on two centuries of Urban planning experience and rebuilt eight towns here in the late Baroque style. You'll visit four of them, Ragusa, Scicli, Modica and Valle di Noto. All four are listed on the UNESCO list of World Heritage Sites and each one is spectacularly beautiful.

Continue your exploration of Sicily and join us to for the [Grand Cycling Tour of Sicily](#) which includes [Cycle Southwestern Sicily's Ancient Mediterranean Cities](#) and we'll include a shuttle to Agrigento where the tour begins.

HIGHLIGHTS

UNESCO World Heritage Sites in the valle di Noto, Syracuse, Rural countryside accommodations with pools, Olive oil tasting, Beaches and swimming opportunities, Archaeological site of Cava d'Ispica.

Meet in Siracusa (Syracuse)

Highlights Ancient Siracusa, one of the oldest Greek settlements in Magna Grecia

Arrive today in Siracusa or "Syracuse" in English. The Greek "Syrakousai" was one of the first Greek colonies in the western Mediterranean, founded in 734 BC by colonists from Corinth. By the mid-5th century BC it rivaled Athens for supremacy with a population of a quarter of a million people. Home to Archimedes (of Archimedes Principle fame) Siracusa has a wealth of ancient Greek ruins and the largest Greek theater from the 5th Century BC. Our hotel is in the center of ancient Ortigia. Enjoy a test ride around the ramparts before our special welcome dinner tonight.

DAY 1: Sat, May 6th

Meals Dinner

Lodging  Henry's House

Siracusa to Noto

Highlights UNESCO town of Noto, country resort near the world famous Vendicari nature reserve

Your first ride in Sicily has you pedaling through small beach and fishing towns, passing an abandoned "tonara" or tuna canning factory which was one of the biggest economic drivers of the island in the late 18th and 19th centuries. The route takes us inland to the imposing town of Noto, one of the many towns in this region rebuilt (in a new location) in the grand baroque style after the earthquake of 1693. The striking white town is perched above the valley and makes for an impressive destination as you pedal towards it. Enjoy a walk in Noto before heading to our destination tonight, a splendid old farmhouse renovated into lodging with a swimming pool and particularly lovely grounds.

Noto Loop to Marzamemi and Capo Passero

Highlights Fishing port of Marzamemi, coastal scenery and beaches, wine tasting

Take your swimming suit along today as there are plenty of opportunities to find an isolated beach to take a refreshing dip. You'll pass through the fishing village of Marzamemi, a village built up around the ancient tonara. The red tuna from this area are still prized in Japan for sushi. While the tonara here is no longer working, the quaint fishing village has maintained its charm with quaint buildings, restaurants, cafés and stores. From here you can opt to continue your ride along a quiet coastal road to Capo Passero, which is the furthest southeastern point in Sicily. This evening we'll enjoy a wine tasting before dinner together.

Spectacular climb to the high plains of the interior

Highlights Cavagrande del Cassibile, lunch together with pool and sea view, lovely farm hotel amid almond and olive groves

Your ride today takes you to the interior of the island through olive and almond groves. An impressive climb of approximately 400 meters (1,300 feet) up a narrow canyon that delivers stunning views into the deep canyon and far out to the sea as you summit on the plateau. Reward yourself with a pool side lunch (and perhaps a dip in the pool!) before continuing along the plateau to reach our quiet country lodge immersed in the hills and close to the expansive ruins of the old city of Noto destroyed in the earthquake of 1693. A brief stroll through Noto Antica's ruins allows you to travel back in time and imagine the large city that once dominated the area. All that remains today is scattered stones, crumbling buildings and tower ruins.

Ride from Noto Antica to Ragusa

Highlights Country roads, the new and old cities of Ragusa

You are primarily on country roads today as you pedal west to Ragusa. Stop and visit an olive oil press to learn about the local olives, the local farmers, and the business of making olive oil. From there you'll continue to Ragusa which, like Noto, was rebuilt in the 17th century after the massive earthquake. Uniquely though, Ragusa was not moved to a new site. The result is a new baroque town on a ridge top next to the ancient town clinging to a narrow ridge and the valley below.

Bicycle from Ragusa to Scicli

Highlights Lands once occupied by Greeks, Romans, Arabs, Normans and Italians; water mill; archaeological site of Cava d'Ispica; picnic

The timeless landscape of southeast Sicily comes to life today as you pedal ridges and hills toward the famous archaeological sites of Cava d'Ispica, a narrow gorge filled with grottoes which were used since Neolithic times for lodging. Enjoy a picnic lunch near a unique water mill built in a cave before continuing on to the delightful town of Scicli. Scicli is the set for the TV film series Inspector Montalbano, based on the fictional town of Vigáta. Tourism to the area has boomed thanks to this popular TV series although a walk through town will highlight much more than a mere TV set!

Bicycle Tours in Italy: Bicycle the Baroque Towns of Southeastern Sicily**Loop Rides from Scicli to Modica and/or Donnalucata**

Highlights Famous chocolate town of Modica and to the seaside town of Donnalucata

We'll mark two loop rides today to nearby Modica and to the seaside at Donnalucata. Donnalucata is the site of a decisive battle in 1091 between the Normans and the moors. It was also central to the allied invasion of Sicily in July 1943. It also offers a chance for a little beach time for those so inclined. Modica is another town rebuilt after the earthquake of 1693 but, as it sits astride the Modica River, it also suffered from devastating floods at the beginning of the 19th century. Modica is also famous for retaining the original Aztec recipe for chocolate imported by the Spaniards in the 16th century. We'll enjoy a special visit and tasting at the Bonajuto chocolate shop which touts six generations of artisan confectioners.

BICYCLES

For a full list of what's included with your bike see our bikes page (<https://www.experienceplus.com/what-to-expect/our-bikes/>). If you would like to bring your own pedals and shoes we recommend doing so. On Explorer tours we include a GPS device on all bikes. We ask that you bring your own helmet to ensure the best fit. Please ask if you would like us to provide you with a gently used helmet and we will do so.

NAVIGATING, DAYSHEETS AND VAN SUPPORT:

Each day you'll receive a daily briefing with a highlighted route map. About 14 days prior to your tour, we will provide you with access to RideWithGPS Experiences, our platform

to distribute information on each tour day's activities, meals and ride, as well as GPS-routes.

Daily information also includes Tour Leader phone numbers, hotel information and interesting historical and cultural information. On Classic, Bike and Boat, Spotlight and Expedition tours we also navigate using our signature chalk dust arrows. Our arrows make navigating very easy—you may never need to look at the map. On Explorer tours the terrain and destinations are not always conducive to using chalk arrows so we'll ride as a group or you can navigate on your own with the GPS tracks. On tour you will have a support van providing water and snack resupply, mechanical assistance, a lift for tired cyclists, and luggage transfers. On some itineraries the van will not be able to follow sections of the route that stray from the road for example onto cycling paths.

On tour you will have a support van providing water and snack resupply, mechanical assistance, a lift for tired cyclists, and luggage transfers. On some itineraries the van will not be able to follow sections of the route that stray from the road for example onto cycling paths.

Need More Miles? On many days it is possible to add miles to the day, just talk to your tour leader about your options.

Need Fewer Miles? If you aren't sure about your abilities or how much you want to ride remember the support van is available to offer snacks, encouragement, a lift over the next hill, or to the next hotel. You are on vacation and we're here to help make it perfect for you.

TIPPING YOUR TOUR LEADER TEAM:

If you feel your tour leader team has demonstrated great expertise and service, common practice within the travel industry is to tip. Tipping is voluntary and greatly appreciated, and gratuity amounts vary widely. Should you decide to leave a tip, as a guideline, we suggest 5% of the tour cost per traveler – this is for the entire tour leader team, not each tour leader. You can give the tip to any member of the tour leader team, as they share it evenly. In order to avoid social tensions, we encourage you to tip as individuals and not as a group. If you feel your tour leaders did not quite meet your expectations, please let us know. *Tips are included in Expedition pricing.

PHOTOS:

By reserving space on tour, you agree that ExperiencePlus! may use, re-use and reproduce any images, photos or videos sent to us, or taken by our guides or travelers free of charge and without your right to inspection. If you do not want us to use any images of you on tour, you must inform your tour leader in writing at the start of the tour.

**LEVELS**

We know that travelers have different cycling abilities and preferences for the number of miles, elevation gain, and type of terrain they want on a bicycle tour. We have rated each day of our tours on a scale of 1-5. Our Tour Level's are an average of the day rating on tour. We recommend looking at the daily summary on the PDF and Website Itinerary to see details about each day's ride.

LEVEL 1 - 1.5

Level 1 - 1.5 days will be mostly flat and the distance will rarely exceed 50 km. Level 1 - 1.5 tours are suitable for beginner cyclists, those traveling by bicycle for the first time, or multi-generational groups with a desire for a nice and easy bike tour with plenty of opportunities to stop and enjoy the scenery.

- **Average daily mileage:** 20 - 50 km. (12-30 miles) Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 0-400 M (0-1200 ft)
- **Terrain:** Mostly flat with occasional gentle climbs at a grade of less than 3%, that are sustained for a maximum of 3km. There might be a steeper but short climb.

LEVEL 2 - 2.5

Level 2 - 2.5 days are ideal for riders newer to bicycle touring looking for a bit of a challenge.

- **Average daily mileage:** 30-60 km (18 - 38 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 400 - 600 m (1200 - 2000 ft)
- **Terrain:** Mostly rolling terrain around 3%. Presents multiple 3% to 4% climbs. May present an occasional steeper climb.

LEVEL 3 - 3.5

Level 3 - 3.5 days are great for active individuals (who run, bike, swim etc. on a regular basis).

- **Average daily mileage:** 50-70km (30-45 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 600 - 900m (2000 - 2800 ft)
- **Terrain:** Multiple Climbs with grades of 4 - 6%.

LEVEL 4 - 4.5

Level 4 - 4.5 days are the best riding days for avid cyclists or very active individuals who are excited to challenge themselves on a bike.

- **Average daily mileage:** 70-90km (45-55 miles) Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 900-1000m (2800-3600 ft)
- **Terrain:** Presents multiple steep climbs (6% to 8% grades), 1 to 3km long. Alternatively, 4 – 6% grades for 6 kilometers or more.

LEVEL 5 (EXPEDITION)

Our Expedition tours designed for strong riders looking for the challenge of riding across countries or continents. Long daily mileages mean limited van support so we recommend these tours for riders who feel confident that they can ride every mile.

- **Average daily mileage:** 120 km (75 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 500-2000 m (1600- 6500 ft)
