Bicycle Tours in Spain: Bicycling Catalonia's Costa Brava Plus! Barcelona

OVERVIEW

Home to some of Spain's most iconic cities and famous characters, Catalonia is a one of a kind destination. With a history as diverse as the territory and a cultural identity and language of its own, this Spanish community will delight and fascinate. Join us on a 12-day bicycle tour beginning in Girona, one of the most fought after towns in all of Spanish history. We'll pedal east towards the rugged Costa Brava and through the rolling hills of the Emporda' region - dotted with Roman ruins and medieval towns. Our journey continues through hidden fishing villages, quiet towns, and through wine country on our way to Figueres, Salvador Dali's birthplace. We'll cycle west towards the foothills of the Pyrenees through nature reserves and to ancient Roman spa towns before looping south. Our journey ends on a 10-mile bicycle path finishing in the heart of Barcelona.

If this sounds great but you don't have time for the full 12 days, check out our 8-day Bicycling Catalonia's Costa Brava itinerary which shortens this itinerary by 4 days.

We work hard to maintain consistency across all of our tours, but some trips have unique differences. Here are some things to keep in mind about this tour. In Spain dinners are traditionally later in the evening. Though we try and arrange dinners together as early as possible, in Spain this means 8:00 to 8:30 p.m. We recommend not drinking the tap water in Girona. While tap water in Europe is generally safe to drink (see information about meals and drinks on tour), Girona is an old city with old pipes. We will provide bottled water on tour in the Girona area. If you arrive early, we recommend you drink bottled water also.

DAY 3: Fri, Jun 9th

Highlights Beaches, rural bicycling, castles and medieval towns

Today we'll ride along the coast to Palamos, a great coffee stop and perfect opportunity for one last dip in the sea before we head inland over rolling hills. Many of the towns we'll pass through on today's ride were once fortified Roman and medieval cities, so be sure to take time to meander the tiny streets. Peratallada, our destination this evening, is perhaps the best preserved as the center is entirely pedestrian and the walls still stand. You'll notice ruts in the stone streets which were created from centuries of horse carts moving through the narrow streets. We'll stay just outside of town and enjoy this little corner of Catalonia for the next few days. The September 18, 2024 departure will stay at the Hotel Arcs Monells.

La Bisbal d'Emporda is a great town to enjoy a beverage and explore the boutiques and artist stores - some of which carry traditional pieces while others have expanded into more modern ceramic art. After our visit we'll continue our loop ride which includes the option of an 8 km (5 miles) climb for anyone wanting a little challenge. Everyone else can join local cyclists to conquer the hill that creates a natural barrier and makes this Eastern most peninsula in Spain such a unique natural and geological formation. INCLUDED

When you book a tour with ExperiencePlus! our goal is to ensure your only focus each day is to hop on your bike and explore scenic cycling routes in new destinations. Inclusions may differ depending on which tour style you pick but all ExperiencePlus! tours include what we believe are the most important aspects of a bike tour.

- On all our guided tours, you can expect superb tour leaders who are fun and multilingual, bi-cultural experts, and cycling enthusiasts. They will support you and help you navigate confidently on and off the road.
- High quality bikes selected for the terrain you are cycling on and correct bike fitting to ensure comfortable cycling.
- Thoughtfully designed itineraries and routes that take advantage of stunning cycling destinations and the freedom of bicycle travel. Plus, all the logistics are taken care of.

PRE-TRIP SUPPORT

- Bicycle training programs designed specifically for your tour and fitness level.
- Planning tips on what to pack, hotel recommendations and other helpful details from our Travel Planning Pages: https://www.experienceplus.com/travel-planning/
- A gift of your choice (cycling jerseys, socks, or a t-shirt) as our way of saying thanks for choosing EP!
- *Traveler services including assistance booking extra nights at the tour starting and ending hotels. (*Explorer and Self-guided tour styles excluded)
- See "What's Included" for tour-specific inclusions and be sure to check the "Keep in mind" section under "Tour Summary" online.

BICYCLES

For a full list of what's included with your bike see: https://www.experienceplus.com/what-to-expect/our-bikes/. If you would like to bring your own pedals and shoes we recommend doing so. On Explorer and Self-guided tours we include a GPS device on all bikes.

NAVIGATING, DAYSHEETS AND VAN SUPPORT:

On a guided tour, each day you'll receive a daily briefing with a highlighted route map. On a self-guided tour you'll receive a comprehensive orientation and bike fit on the first or second morning of your trip. About 14 days prior to your tour, we will provide you with access to RideWithGPS Experiences, our platform to distribute information on each tour day's activities, meals and ride, as well as GPS-routes.

Daily information on the RWGPS Experience includes important phone numbers, hotel information and interesting historical and cultural information. On Classic, Bike and Boat and Expedition tours we also navigate using our signature chalk dust arrows. Our arrows make navigating very easy—you may never need to look at the map. On Explorer tours the terrain and destinations are not always conducive to using chalk arrows so we'll ride as a group or you can navigate on your own with the GPS tracks.

On a guided tour you will have a support van providing water and snack resupply, mechanical assistance, a lift for tired cyclists, and luggage transfers. On some itineraries the van will not be able to follow sections of the route that stray from the road for example onto cycling paths. On a self-guided tour you will have luggage transfers that will transport your bags from one hotel to the other.

Need More Miles? On many days it is possible to add miles to the day, just talk to your tour leader about your options or ask when you are planning your self-guided trip.

Need Fewer Miles? On a guided tour, the support van is available to offer snacks, encouragement, a lift over the next hill, or to the next hotel. On a self-guided tour we recommend you review the tour level to make sure you can ride the full distance.

ON A GUIDED TOUR: TIPPING YOUR TOUR LEADERS

If you feel your tour leader team has demonstrated great expertise and service, common practice within the travel industry is to tip. Tipping is voluntary and greatly appreciated, and gratuity amounts vary widely. Should you decide to leave a tip, as a guideline, we suggest 5-8% of the tour cost per traveler — this is for the entire tour leader team, not each tour leader. You can give the tip to any member of the tour leader team, as they share it evenly. In order to avoid social tensions, we encourage you to tip as individuals and not as a group. If you feel your tour leaders did not quite meet your expectations, please let us know. *Tips are included in Expedition pricing and not expected on self-guided tours.

LEVELS

We know that travelers have different cycling abilities and preferences for the number of miles, elevation gain, and type of terrain they want on a bicycle tour. We have rated each day of our tours on a scale of 1-5. Our Tour Level's are an average of the day rating on tour. We recommend looking at the daily summary on the PDF and Website Itinerary to see details about each day's ride.

LEVEL 1 - 1.5

Level 1 - 1.5 days will be mostly flat and the distance will rarely exceed 50 km. Level 1 - 1.5 tours are suitable for beginner cyclists, those traveling by bicycle for the first time, or multi-generational groups with a desire for a nice and easy bike tour with plenty of opportunities to stop and enjoy the scenery.

- **Average daily mileage:** 20 - 50 km. (12-30 miles) Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 0-400 M (0-1200 ft)
- **Terrain:** Mostly flat with occasional gentle climbs at a grade of less than 3%, that are sustained for a maximum of 3km. There might be a steeper but short climb.

LEVEL 2 - 2.5

Level 2 - 2.5 days are ideal for riders newer to bicycle touring looking for a bit of a challenge.

- **Average daily mileage:** 30-60 km (18 - 38 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 400 - 600 m (1200 - 2000 ft)
- **Terrain:** Mostly rolling terrain around 3%. Presents multiple 3% to 4% climbs. May present an occasional steeper climb.

LEVEL 3 - 3.5

Level 3 - 3.5 days are great for active individuals (who run, bike, swim etc. on a regular basis).

- **Average daily mileage:** 50-70km (30-45 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 600 - 900m (2000 - 2800 ft)
- **Terrain:** Multiple Climbs with grades of 4 - 6%.

LEVEL 4 - 4.5

Level 4 - 4.5 days are the best riding days for avid cyclists or very active individuals who are excited to challenge themselves on a bike.

- **Average daily mileage:** 70-90km (45-55 miles) Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 900-1000m (2800-3600 ft)
- **Terrain:** Presents multiple steep climbs (6% to 8% grades), 1 to 3km long. Alternatively, 4 — 6% grades for 6 kilometers or more.

LEVEL 5 (EXPEDITION)

Our Expedition tours designed for strong riders looking for the challenge of riding across countries or continents. Long daily mileages mean limited van support so we recommend these tours for riders who feel confident that they can ride every mile.

- **Average daily mileage:** 120 km (75 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 500-2000 m (1600- 6500 ft)
