

Bicycle Tours in Argentina: Expedition: Patagonia Coast to Coast - Chile to Argentina

OVERVIEW

Are you ready to pedal Coast to Coast across South America? Join us on this expedition from Chiloé, Chile on the Pacific Coast, over the Andes, down the Chubut River valley through the Argentinian Steppe, to Playa Union on the Atlantic Coast. There are plenty of surprises along the way: starting with the unique culture of the Chilote people who are of Spanish and indigenous Mapuche descent; the Welsh settlement and tea houses at Gaiman; and Ruta 25, the main road of Argentine Patagonia but one of the least traveled roads in the country. We'll enjoy oceans, rain forest, mountains, deserts, river valleys and just about every other type of terrain you can imagine on this 700+ mile, 17-day expedition.

Expedition tours are designed for experienced riders looking to challenge themselves. You can read more about how they differ from a regular ExperiencePlus! tour [here](#).

We work hard to maintain consistency across all of our tours, but some trips have unique differences. Here are some things to keep in mind about this tour.

- Expeditions require that you be prepared for anything and a sense of adventure will be your most valuable asset!
- Because of gravel or poor road conditions there will likely be 2 or 3 instances where you will have to shuttle.
- You will travel to remote areas where accommodations will be very basic.
- Private Rooms may not be available every night.

Please Note: We may have small itinerary changes to this trip after you download this PDF document. If you have booked this trip and there are major changes, including changes to towns or activities, we'll email you directly. Puerto Montt Airport (PMC) has connections to Santiago, Chile (SCL), Buenos Aires International Airport (EZE), and Buenos Aires Domestic Airport (AEP) see [LATAM](#)

- **Connecting in Santiago, Chile:** LATAM offers several 1.5 hour direct flights from Santiago.
- **Connecting in Buenos Aires:** LATAM offers several flights daily from both Buenos Aires Airports - you may have to connect through Santiago). It is a 4.5 to 5.5 hour flight. We would recommend connecting through Santiago rather than Buenos Aires.

For more travel planning tips, including our packing lists, visit our [Travel Planning Pages](#).

DEPARTURE INFO

On the final tour day, we shuttle from the tour end you to the **Trelew Airport (REL)**. Bicycle Tours in Argentina: Expedition: Patagonia Coast to Coast - Chile to Argentina

Tips on flights:

Trelew Airport has connections to Buenos Aires, from where you can connect to the United States from Santiago, Chile. Non-stop flights from Trelew to Buenos Aires take less than 2 hours but be aware of some itineraries that make several stops along the route and therefore take much longer. See [LATAM](#)

You will likely have to change airports in Buenos Aires. Read details on how to do that [here](#).

Bicycle Tours in Argentina: Expedition: Patagonia Coast to Coast - Chile to Argentina**Meet in Puerto Varas****Highlights** Chiloe Island

Our trip begins with a shuttle to Ancud, Chiloé (about 90kms, 2 hours) where we fit bicycles and take a warm-up ride to stretch out our legs. Founded in 1767, Ancud was a fortified city, a base for seafarers coming north around Cape Horn, and the last Spanish stronghold in Chile. Chiloé is a fascinating island with one of the largest indigenous populations of any place in Chile.

DAY 1**Meals** Dinner**Lodging** 🏠 Hotel Don Lucas**Dip your toes in the Pacific Ocean****Highlights** Magellan and Humboldt penguins colony, walk on beach, Curanto Lunch

We're in Ancud again tonight but we'll take an excursion today to be sure our bikes are properly fitted, dip our toes in the Pacific on this spectacularly remote beach and visit the penguin colony. A 30 min. boat ride will takes us to Puñihuil, the only place in Chile where both the Magellan and Humboldt penguins breed. For lunch we'll have a Curanto lunch - experience a 10,000 year old recipe and cooking style.

Our route today takes us on the Panamerican Highway for about 40 km, then off to the east coast of Chiloé Island. A little over half way into our ride we'll pass the Aucar islet, a tiny island with just a church and cemetery but special because of a 700m wooden bridge which connects it with the Island of Chiloé. (For those who want to add a few km the wooden church of Colo is worthwhile the detour(there will be another wooden church on the route tomorrow)). We'll end our day in Dalcahue, a fishing port north east of Castro, the capital of the island.

DAY 3**Distance** 110 km (68 mi)**Gain** 1523 m (4995 ft)**Terrain** Hilly**Level** 5.0**Meals** Breakfast, Lunch, Dinner

We pedal from Castro to Chiloé National Park on the Pacific Coast today. In the National Park we'll go for a 1-2 hour hike to explore its ancient forests and learn about its history. This region was described by Charles Darwin on his famous voyage as rich in its diversity of temperate-zone forest plants. The park was created by the indigenous communities of Chiloé who have fought to protect the environment threatened by intensive deforestation. The national park is also home to rare species of animals endemic to Chile, such as picaflores (hummingbirds), kingfishers, huillines (sea otters), and pudúes (the smallest deer in the world). We'll visit with members of the indigenous community of Quilque over lunch with local products. Tonight we overnight in a unique stilt hotel in the small town of Cucao.

**LEVELS**

Travelers have different cycling abilities and preferences for the number of miles, elevation gain, and type of terrain they want on a bicycle tour. Our tour levels fall on a scale of 1 - 5. In addition to the overall tour level we have developed daily level summaries to provide an even more detailed look at what kind of cycling you can expect from each day on tour. You'll find all of the details including mileage, elevation gain, terrain and level for each day of the itinerary to help you better understand what to expect from your tour.

LEVEL 1 - 1.5

This day will be mostly flat and the distance will rarely exceed 30 km. LEVEL 5 (EXPEDITIONPLUS!)

Our ExpeditionPlus! tours designed for strong riders looking for the challenge of riding across countries or continents. Long daily mileages means limited van support so we recommended these tours for riders who feel confident that they can ride every mile.

- **Average daily mileage:** 120 km (75 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** Expect and be prepared for any and everything.

REMEMBER

It is almost always possible to adapt the day's ride to how you are feeling either by taking advantage of the support van, or asking tour leaders for additional mileage.

Need More Miles? On just about every day of every tour it is possible to add miles to the day. Just talk to your tour leader about the options.

Need Fewer Miles? If you aren't sure about your abilities or how much you want to ride remember the support van is available to offer snacks, encouragement, a lift over the next hill, or to the next hotel. You are on vacation and we're here to help make it perfect for you.

Chalk Dust Arrows. Remember, no matter what level of tour you choose ExperiencePlus! uses chalk dust arrows to mark our routes so riders can take the day at their own pace! Whether you prefer to stop at every gelateria, take a hundred photos a day, or push to achieve a new personal best you'll be happy on our tours.

WHAT TO EXPECT**BICYCLES**

Your bike will be equipped with: a men's or women's saddle, a quick release style seat post adjustment, rear rack and expandable pack, pump, patch kit, spare tube, cable lock, cyclometer, rear lights, a water bottle cage (or two) and a water bottle (or two) and a bell. If you would like to bring your own pedals and shoes we recommend doing so—your tour leaders will install them during the bike fitting. We have flat pedals with or without cages available. For safety and hygiene reasons we recommend you bring your own helmet.

Daily Routine (Procedures and Logistics)**DAYSHEETS**

Each day you'll receive a daysheet with information on the day's activities, meals and ride, which will be discussed during a briefing. The Daysheets also include Tour Leader phone numbers, hotel information and interesting historical and cultural information about sites that you may want to stop and see along the route. Your Tour Leaders will also post daily announcements in the hotel lobby with information about sightseeing in town or restaurant recommendations for dinners on your own as well as important information about breakfast, luggage down and "arrows down" time.

NAVIGATING ON TOUR

Daily we provide you with a highlighted route map. Of course, we also mark the route every day with our signature chalk dust arrows. Our arrows make navigating very easy—you may never need to look at the map! The arrows also allow you to ride at your own pace. There is no need to "keep up" with the group—this is your ride!

But what if it rains? What happens to the arrows? In a light rain, the arrows actually "set up" and become more permanent. In a heavy rain, they do wash away. If that happens, we'll re-group to cycle together for those who want to continue cycling while those who prefer to stay dry can shuttle.

For the tech-loving riders out there we offer the opportunity to download GPS tracks of most tour routes to your personal GPS device using RideWithGPS.com.

VAN SUPPORT

Full van support including: luggage shuttle, water and snack resupply, mechanical assistance, and rides for tired cyclists!

HOTELS

We have carefully chosen all of our accommodations for their charm and location. They are typically small, family run hotels that offer you a glimpse into the local culture. We prefer hotels near interesting sites in the center of town located along the best cycling route in the area. Because many of the hotels are small not all of the rooms will be exactly the same. We keep this in mind and do our best to distribute rooms fairly by the end of the tour. Our itinerary lists our primary hotels. On rare occasions, listed hotels are subject to change.

MEALS AND RESTAURANTS

Breakfasts: we work hard to arrange complete breakfasts but some hotels still serve continental style breakfasts; cycling is energy intensive so we do recommend you plan for a morning or mid-morning snack on the road at a local café or market.

Water is OK in almost all hotels and in country fountains; if there is a problem, we will advise you.

We'll recommend lunch locations en route and most itineraries include a few group picnics. We limit the number of picnics so you don't feel pressured to be at a certain place in the middle of your ride.

Dinners together are often pre-planned and pre-ordered. We'll ask you if you have special dietary requirements. Pre-planned meals allow us to provide a variety of regional specialties and facilitate efficient service. Water, wine and beer are included.

TIPPING YOUR TOUR LEADER TEAM

If you feel your tour leader team has demonstrated great expertise and service, common practice within the travel industry is to tip. Tipping is voluntary and greatly appreciated, and gratuity amounts vary widely. Should you decide to leave a tip, as a guideline, we suggest 5% of the tour cost per traveler – this for the entire tour leader team, not each Tour Leader. If you'd like to show your gratitude for your Tour Leaders' excellent service you can give the tip to any member of the tour leader team, as they share it evenly. In order to avoid social tensions, we encourage you to tip as individuals and not as a group. If you feel your Tour Leaders did not quite meet your expectations, then we would like to know about it. You will also have the opportunity to leave your comments in our evaluation survey which we email to you after your trip.
