

Bicycle Tours in Italy: Bicycle Hidden Tuscany Plus! Tufa Towns

OVERVIEW

The Etruscans gave Tuscany its name and after the classical age the epicenter of Tuscany moved to the valley of the Arno River to the north of Siena, and this area of (southern) Tuscany was largely forgotten--until today. Modern Italians have re-discovered this scenic area for its landscapes, villages, and historical sites and we're happy to offer you an opportunity to discover it, too. Cycle through important Tuscan towns including Volterra and San Gimignano, visit smaller gems like Massa Marittima and Castiglione della Pescaia, and enjoy spa hotels such as the one near the important Etruscan site of Populonia.

A more remote part of Italy, this ride between two famous Italian destinations--Tuscany and Rome, offers a wealth of culture and remarkable scenery.

If this sounds great but you prefer a shorter tour check out our [Bicycling Hidden Tuscany](#) itinerary.

Bicycle Tours in Italy: Bicycle Hidden Tuscany Plus! Tufa Towns

Bicycle through the northern Maremma region

Highlights Wine village of Bolgheri, Maremma region of Italy, outdoor pools

We have another scenic ride in store today as we bicycle through the Maremma region of Italy, famous for its "cowboys" and small, medieval towns. The first part of our ride is along the coastal plain; this entire section underwent agricultural reclamation from the late 19th century through Mussolini's rule in the early-mid 20th century. Swamps were drained and roads and other infrastructure were built, and the region is now rich in olive oil and wine production. We pedal through the tiny fortress town of Bolgheri, famous for its red wines, including "Sassicaia". Talk with the locals if you can find one; according to one spry 89-year-old we met in the town square, there are only twenty-six residents left! Another gentle forested climb brings us to a gliding downhill which customers have called, "the best ride in the world" and ends in a tiny stone village, worth a peek before continuing on. Our hotel pool is perfect for soothing tired muscles after four days of cycling.

Loop ride to Populonia and the beach

Highlights Etruscan sites, beaches, Medieval architecture

We've planned a casual bike ride today to give you a sampling of history and geography from the Etruscan time through the Renaissance. We head first to the ancient Etruscan port of Populonia, the most important Etruscan port town. We'll have a guided visit of the tombs and the "industrial" area, learning about the Etruscans' practice of metallurgy, where they mined tin and iron from local deposits and processed them into valuable commodities for trade throughout the Mediterranean. After our visit, you can ride to the village for the view, enjoy some beach time, have lunch by the sea, return to the pool or head off for some more mileage.

Bicycle to Massa Marittima

Highlights Cycling remote country roads, the hilltop village of Massa Marittima

Today's ride takes you into the interior as you follow several river valleys. Our destination tonight is the lively hilltop village of Massa Marittima. Massa Marittima is known as the "figlia nobilissima" (noble daughter) of Pisa and Siena. Its origins lie somewhere in the High Middle Ages, when the hills around the city were mined for minerals. In the 10th century, the city was the seat of the Bishop of Populonia, but the city's golden age came in 1225, when it became an independent municipality. Take time for some sightseeing or relax by the pool.

Today's ride takes you further into the interior before bringing you Castiglione della Pescaia on the coast. Although it is a busy seaside resort in July and August, for most of the year Castiglione is a bustling market center and fishing port. Our hotel sits in the old city center under the 17th century walls built by the Medici family's Grand Duke, Ferdinand I.

Enjoy a picnic lunch at an agriturismo and a guided visit of the monumental Etruscan Hildebrand tomb, one of the most famous and well-preserved tombs of the area and within a larger necropolis where we can wander through the canyon-like alleyways, all of which are sculpted from stone. Settle into our hotel or head to the center of town to sit and enjoy a drink, surrounded by remarkable tufa stone buildings.

DAY 8: Sun, Oct 13th

Loop ride to stone villages

Highlights Pitigliano and Orsini Family Palaces, Etruscan archaeological sites, Sorano

Our loop ride from Sovana takes us to the striking towns of Pitigliano and Sorano, both of which are perched high on a cliff of tufa stone. Similar to Sovana, these towns have Etruscan origins and impressive archaeological remnants. Built between the 10th and 15th centuries, they were held by important Roman families--the Orsini (Pitigliano) and the Aldobrandeschi (Sorano) families until their fall to the Medici's, the Grand Duchy of Tuscany. Their elaborate palaces still stand in the center of both towns.

Bicycle to Tuscania

Highlights Heart of Etruscans, Pianiano, Tuscania

We bicycle through a landscape that characterizes southern Tuscany as we head to northern Lazio, a region most widely known for its capital city, Rome. We'll ride along ridges flanking old volcanoes that created the crater lakes of Bolsena, Vico, and Bracciano. Enjoy a stop in the tiny village of Pianiano, a charming place with a diverse history. It's origins are rumored to come from an ancient cult of Apollo and Diana, and it was once a refuge for Albanians escaping Turkish religious prosecution in 1785. We will then ride to Tuscania, home to the Etruscan Archaeological Museum which features several artifacts found in the numerous nearby Etruscan necropolises.

Viterbo was once the Pope's summer residence, and for a time, the capital of Italy when the Papacy was thrown out of Rome between the 12th and 14th centuries. Viterbo's Papal Palace is an impressive site – and did we mention the town has healing thermal waters? Today, many artisans make their home in Viterbo. We'll visit a ceramist and a historic olive oil press in Viterbo before continuing to our hotel in tiny Punta del Lago, situated on the smallest and highest of the volcanic lakes in this region- Lago di Vico. We'll enjoy a special dinner this evening.

- High quality bikes selected for the terrain you are cycling on and correct bike fitting to ensure comfortable cycling.
- Thoughtfully designed itineraries and routes that take advantage of stunning cycling destinations and the freedom of bicycle travel. Plus, all the logistics are taken care of.

PRE-TRIP SUPPORT

- Bicycle training programs designed specifically for your tour and fitness level.
- Planning tips on what to pack, hotel recommendations and other helpful details from our Travel Planning Pages: <https://www.experienceplus.com/travel-planning/>
- A gift of your choice (cycling jerseys, socks, or a t-shirt) as our way of saying thanks for choosing EP!
- *Traveler services including assistance booking extra nights at the tour starting and ending hotels. (*Explorer and Self-guided tour styles excluded)
- See "What's Included" for tour-specific inclusions and be sure to check the "Keep in mind" section under "Tour Summary" online.

BICYCLES

For a full list of what's included with your bike see: <https://www.experienceplus.com/what-to-expect/our-bikes/>. If you would like to bring your own pedals and shoes we recommend doing so. On Explorer and Self-guided tours we include a GPS device on all bikes.

NAVIGATING, DAYSHEETS AND VAN SUPPORT:

On a guided tour, each day you'll receive a daily briefing with a highlighted route map. On a self-guided tour you'll receive a comprehensive orientation and bike fit on the first or second morning of your trip. About 14 days prior to your tour, we will provide you with access to

RideWithGPS Experiences, our platform to distribute information on each tour day's activities, meals and ride, as well as GPS-routes.

Daily information on the RWGPS Experience includes important phone numbers, hotel information and interesting historical and cultural information. On Classic, Bike and Boat and Expedition tours we also navigate using our signature chalk dust arrows. Our arrows make navigating very easy—you may never need to look at the map. On Explorer tours the terrain and destinations are not always conducive to using chalk arrows so we'll ride as a group or you can navigate on your own with the GPS tracks.

On a guided tour you will have a support van providing water and snack resupply, mechanical assistance, a lift for tired cyclists, and luggage transfers. On some itineraries the van will not be able to follow sections of the route that stray from the road for example onto cycling paths. On a self-guided tour you will have luggage transfers that will transport your bags from one hotel to the other.

Need More Miles? On many days it is possible to add miles to the day, just talk to your tour leader about your options or ask when you are planning your self-guided trip.

Need Fewer Miles? On a guided tour, the support van is available to offer snacks, encouragement, a lift over the next hill, or to the next hotel. On a self-guided tour we recommend you review the tour level to make sure you can ride the full distance.

ON A GUIDED TOUR: TIPPING YOUR TOUR LEADERS

If you feel your tour leader team has demonstrated great expertise and service, common practice within the travel industry is to tip. Tipping is voluntary and greatly appreciated, and gratuity amounts vary widely. Should you decide to leave a tip, as a guideline, we suggest 5-8% of the tour cost per traveler — this is for the entire tour leader team, not each tour leader. You can give the tip to any member of the tour leader team, as they share it evenly. In order to avoid social tensions, we encourage you to tip as individuals and not as a group. If you feel your tour leaders did not quite meet your expectations, please let us know. *Tips are included in Expedition pricing and not expected on self-guided tours.

PHOTOS:

By reserving space on tour, you agree that ExperiencePlus! may use, re-use and reproduce any images, photos or videos sent to us, or that are taken by our guides or other travelers, in any medium, including but not limited to print, electronic media, or Internet, free of charge and without your right to inspection. If you do not want us to use any images of you, you must inform us or your tour leader in writing at the start of the tour.

**LEVELS**

We know that travelers have different cycling abilities and preferences for the number of miles, elevation gain, and type of terrain they want on a bicycle tour. We have rated each day of our tours on a scale of 1-5. Our Tour Level's are an average of the day rating on tour. We recommend looking at the daily summary on the PDF and Website Itinerary to see details about each day's ride.

LEVEL 1 - 1.5

Level 1 - 1.5 days will be mostly flat and the distance will rarely exceed 50 km. Level 1 - 1.5 tours are suitable for beginner cyclists, those traveling by bicycle for the first time, or multi-generational groups with a desire for a nice and easy bike tour with plenty of opportunities to stop and enjoy the scenery.

- **Average daily mileage:** 20 - 50 km. (12-30 miles) Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 0-400 M (0-1200 ft)
- **Terrain:** Mostly flat with occasional gentle climbs at a grade of less than 3%, that are sustained for a maximum of 3km. There might be a steeper but short climb.

LEVEL 2 - 2.5

Level 2 - 2.5 days are ideal for riders newer to bicycle touring looking for a bit of a challenge.

- **Average daily mileage:** 30-60 km (18 - 38 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Gain:** 400 - 600 m (1200 - 2000 ft)
- **Terrain:** Mostly rolling terrain around 3%. Presents multiple 3% to 4% climbs. May present an occasional steeper climb.
